

Revit® Architecture Advanced

Objective: Broaden your knowledge of Revit® in the areas of Conceptual Design and BIM Management by exploring exercises in mass studies, space planning, visualization, rendering and creating custom families.

Course Length: 2 days (16 hours)

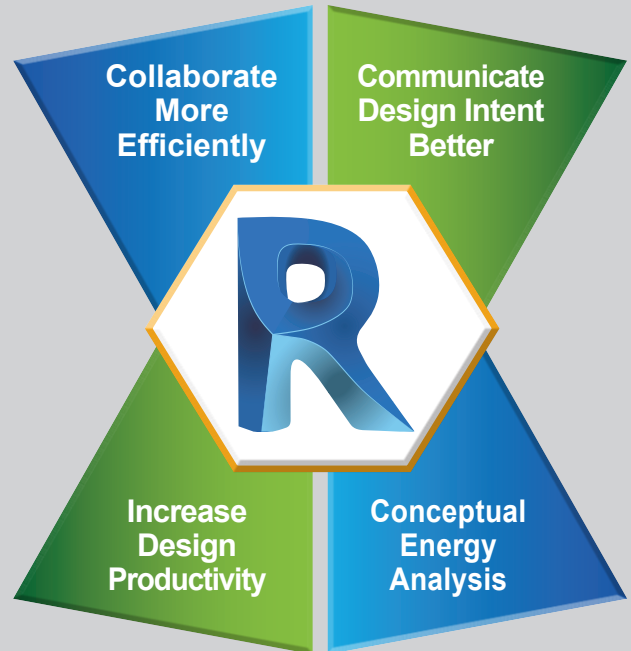

Day 1

- Custom Templates
- Schedules
- Custom System Families
- Component Family Concepts

Day 2

- Advanced Family Techniques
- Additional Family Types
- Architectural, MEP and Structural Specific Families

- Lunch is included.
- Class is from 8:30 a.m. to 4:30 p.m.
- After completion of an entire class, students may audit the same class for one year, if space is available in the class.
- The entire class is purchased at one time, but individual days may be attended sequentially over several months.

Advantages to Training at Repro Products' Autodesk® Authorized Training Center:

- Learn from our Autodesk Certified instructors at our superior facilities.
- Receive Autodesk® recommended content from Autodesk® Official Training Guides.
- Get your hands on sample projects and exercises that emphasize real-world application.

Prerequisites: A working knowledge of basic design/drafting procedures and terminology as well as Windows 7. Revit® Architecture Intermediate or equivalent training or experience is highly suggested.

Cost: \$325 per day plus a \$65 fee for a manual which must be purchased for enrollment.

Continuing Education Units

Ask Repro Products about earning credits for mandatory Continuing Education classes (including the American Institute of Architects - AIA) and other professional development programs.

Call 678-486-3171 to schedule your training.
